PLAN TO PRE-REGISTER!

ADVANCE REGISTRATION PRIZES

1. Transistor Radio
2. Registration Refund
3. Registration Refund

**IN ORDER TO BE ELIGIBLE
PRE-REGISTRATION MUST BE
Post-Marked By November 15th**

**PRE-REGISTRATION SAVES TIME!
PLEASE DO IT NOW!**

**THIS IS YOUR REGISTRATION FORM
(See other side)**

Avoid the line-up by pre-registration

REGISTRATION FORM

(Tear out and Mail)

To: The Academy of Dentistry, Toronto
230 St. George St.
Toronto, Ontario

Please register me for the Winter Clinic

1. Metro Toronto Dentists and Technicians \$25.00
2. Dentists and Technicians outside
Metro Toronto \$30.00
These fees cover admission to all Clinics, Commercial
Exhibits, Luncheon and Dinner.
3. Dental Hygienists \$10.00
This fee covers admission to all Clinics, Commercial
Exhibits and Luncheon.

Extra luncheon and dinner tickets available at the
registration desk.

Enclose cheque payable to the Academy of Dentistry,
Toronto, and mark "Winter Clinic".

Your cheque may include Hygienist's fee, but NOT
Dental Assistant's fee. Send separate cheque with *their* reg-
istration form, see page 25.

(City or town)

Advance registration tickets may be picked up at the
registration desk. No Tickets will be mailed.

PRESIDENT'S FOREWORD

Welcome to the 34th Winter Clinic

Our first all-day Winter Clinic was held December 8, 1937, during the presidency of Dr. Harvey Reid. The Academy would appreciate receiving a copy of that first program for its archives.

May I urge you to register by mail and avoid the line-up. Note the innovation this year of **PRE-REGISTRATION PRIZES**. To be eligible for the draw, your registration must be received at the Academy office before November 15th.

Last Year 102 Dental Hygienists participated. A concerted effort is being made to increase their attendance. The Dental Nurses and Assistants program is proving so popular they are running out of convention space. Have your staff register in advance to save disappointment.

The Winter Clinic Committee under the direction of Dr. Don McKee has assembled an excellent, well balanced program. Enjoy a change of pace from the office, come to learn and see old friends.

The Academy will organize a tour to the International Dental Federation Congress in Mexico City next November. Details of the trip are available at this convention. The Academy tours in 1962 and 1967 were very popular.

MIET A. KAMIENSKI, D.D.S.,

PLEASE — BRING YOUR PROGRAM

"LET'S DISCUSS *YOUR* ACADEMY"ACADEMY OF DENTISTRY, TORONTO
AND ITS FUNCTIONS

This organization has existed continuously for 79 years, fulfilling responsibilities to the Profession and the Public. Its functions would have to be looked after by the four local Societies if the Academy did not exist. The O.D.A. could perform some of these, however Component Societies in other parts of the Province would object strenuously to the O.D.A. devoting more time to Toronto's Dentistry.

Some of the responsibilities of the Academy are listed below:

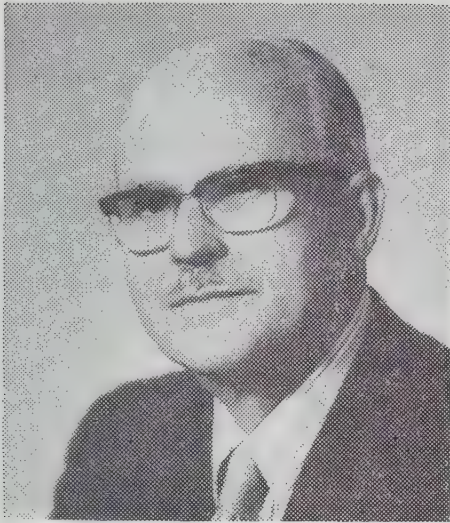

1. Fifteen elected officers serve the Academy without remuneration, each member spends hours of his spare time on the committees to which he is assigned. Each Society has a voice in Academy affairs by having two representatives on Council.
2. The Public Emergency Dental Treatment Program.
3. The Secretarial staff answers telephone and mail enquiries from the public, an invaluable public relations program.
4. The Ladies Auxiliary provides funds (which the Academy administers) for many worthwhile projects.
5. The Annual Year Book is published.
6. The Academy has co-ordinated such programs as: Fluoridation of the communal water supplies, organized the Dental Assistants' evening course and takes an active part in the annual United Appeal Campaign.
7. The Winter Clinic provides a very high calibre one-day meeting.
8. The Golf Tournament, Curling Bonspiel, and the Dinner Dance provides fellowship and relaxation from the office.
9. Two or three yearly stated meetings which stress continuing education are sponsored by the Academy.

The roll of the Academy is to stress co-ordination of the total dental effort in Metropolitan Toronto and to eliminate duplication.

DINNER

CANADIAN ROOM

6:00 p.m.

HONORARY LIFE MEMBERSHIP

STEWART ALEXANDER
MACGREGOR, D.D.S.

On the occasion of the 1971 Winter Clinic the Academy is honoring one of its most illustrious members with an Honorary Life Membership.

Born in Pakenham, Ont., Sandy MacGregor received his early education there and in Arnprior. He entered the University of Toronto in 1926 and graduated

with his D.D.S. in 1931. He took up practice at the corner of Lawrence Ave. and Yonge St. in Toronto, and is still practicing there after forty years.

Those forty years have been packed with accomplishment, within the first ten years he worked his way up to the Presidency of first The North Toronto Dental Society and then, the Academy of Dentistry. In 1943 he entered the Dept. of Paedodontics at the Faculty of Dentistry and began the most important phase of his career. His efforts over the next 24 years resulted in the rapid growth of his department into the renowned establishment it is today.

During this period he was also involved in the development of Dental Services for the Hospital for Sick Children and the Canadian Red Cross. In both institutions he had the same dynamic effect as he had at the Faculty.

At the same time he maintained a busy practice which since 1937 has been limited to his great interest, Dentistry for children. He has lectured extensively on this subject throughout the U.S., Canada and in England.

FELLOWSHIP HOUR

5:00 - 6:00 p.m. — Canadian Room

ACADEMY FUNCTIONS YOU SHOULD PLAN TO ATTEND

FIRST STATED MEETING: Thursday, January 20th, 1972

9:00 a.m.-5:00 p.m., Inn-on-the-Park

Luncheon Included

DR. H. W. WORTH, F.R.C.P.(C), F.R.C.D.(C), L.D.S.(Eng)

*“Interpretation of Dental Radiographs as it Concerns the
Practicing Dentist”*

* * *

CURLING BONSPIEL: Wednesday, March 1st, 1972

Thornhill Country Club, all day Bonspiel

Entry by rinks

* * *

SECOND STATED MEETING: Wednesday, March 8th, 1972

BASE BORDEN — ACADEMY DAY

Canadian Forces Dental Service School

This will be our fourth visit to the Base which is an indication of the popularity of the trip. Don't miss it! Registration fee includes chartered bus transportation, luncheon and dinner. The hospitality of the Officers Mess is famous.

THE ACADEMY OF DENTISTRY

is on its way to

THE LAND OF THE MAYA

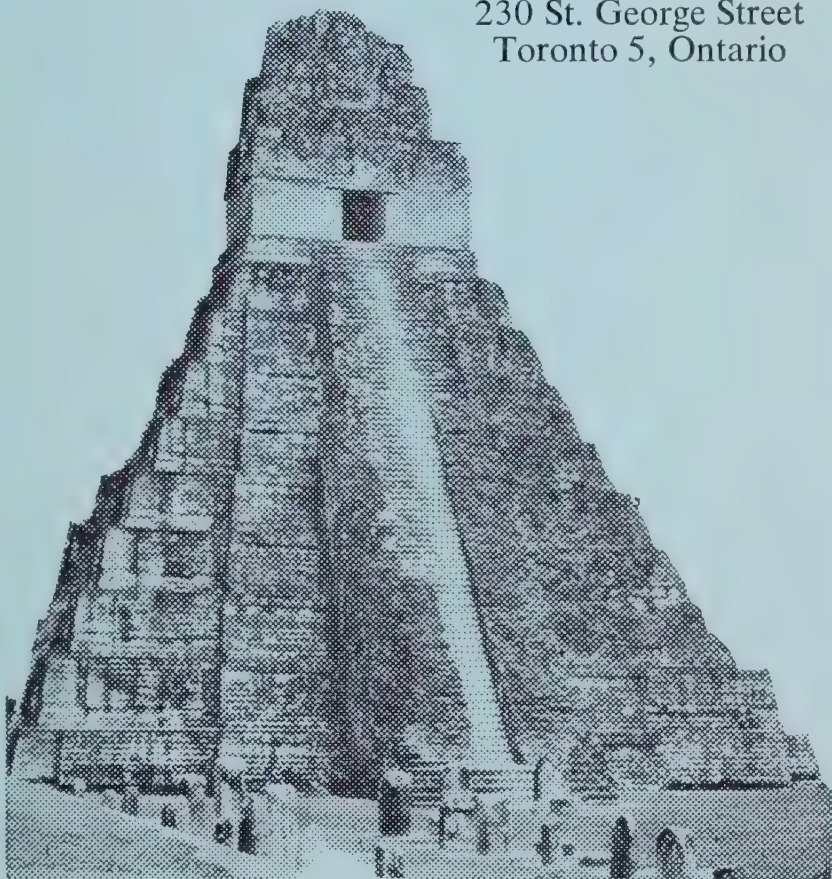

October 22nd to November 4th, 1972

Tour will visit

MEXICO CITY for the F.D.I. Congress,
MERIDA to see the archaeological wonders of
Chichen Itza and Uxmal,
and, to complete the perfect vacation,
COZUMEL, with Mexico's island beaches in the sun.

Register now with

"Inlays, Crowns and Bridges — How to do them Better"

CHARLES JAY MILLER,
B.S., D.D.S.

Synopsis: An approach to motivate patients for the eager acceptance of ideal dentistry will be revealed.

The procedures and techniques used to create accurately fitting full- and partial-coverage restorations will be discussed and illustrated.

The use of the full-shoulder, full-coverage restoration will be presented. This "building block" of modern prosthetic dentistry will enable the operator to build fixed and removable prostheses.

Biography: Received B.S. in 1948 and his D.D.S. in 1950 from University of Pittsburgh, where he is a member of the Postgraduate Faculty.

Member: American Academy for Plastics Research in Dentistry
American Prosthodontics Society
American Academy of Periodontology
American Association of Endodontists
Greater New York Academy of Prosthodontics

Past-President Odontological Society of Western Pennsylvania
(Director 1960-63).

Past-President American Academy of Dental Electrosurgery.

Honorary Member — Japan Research Society of Dental Materials and appliances.

Author: "Inlays, Crowns, and Bridges," Saunders, Philadelphia, 1962.

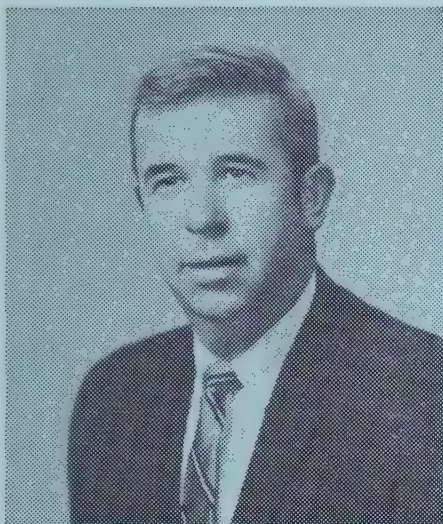

Contributing Author: Dental Clinics of North America, November, 1964.

PLACE: — TERRITORIES ROOM

TIME: — 9:30 a.m. — *Chairman* — DR. W. D. CAVANAGH
— 2:30 p.m. — *Chairman* — DR. T. MCKEAN

"Group Practice: The Future of Dentistry"

WILLIAM E. MARSHALL, D.D.S.

Synopsis: The Methods of Dental Service Deliverance have failed to keep pace with the scientific advancements in the use of materials and methodology of dental care.

The gathering together of dentists into groups is the keystone to improvement of Dental Service Deliverance. Only in groups can auxiliaries, equipment, etc., be used to their complete advantage.

Dentistry practiced as a Cottage Industry can no longer be called a system of dental care but rather a nonsystem.

If dentistry is to remain as a private enterprise, as against a governmental Bureau, it must look to improved methods of delivering to all people our professional care.

Biography: Received his D.D.S. in 1952 from Marquette University Dental School, and entered private practice in Madison, Wisconsin in 1952, took first partner in 1961 and building for seven man group practice built in 1963 with Dr. Marshall as administrator.

Speciality — Administration for group dental practice.

Guest Lecturer at Marquette Dental School on Group Practice, Administration and Association Insurance.

Chairman Insurance Committee, State Dental Society, 1964 to present.

Member — Council on Insurance, ADA, 1968 to present.

Participant in 1st Conference ADA on Group Practice, 1969.

Member American Association Dental Examiners.

Vice President Wisconsin State Board of Dental Examiners.

Fellow International College of Dentists.

PLACE: — CONFEDERATION ROOM

TIME: — 9:30 a.m. — *Chairman* — DR. P. BECK
— 2:30 p.m. — *Chairman* — DR. A. HISTROP

BRING THIS PROGRAM WITH YOU!

"The Role of Complete Denture Occlusion in Residual Ridge Resorption"

HAROLD R. ORTMAN, D.D.S.

Synopsis: An analysis of the criteria for complete denture occlusion will be made and related to the various problems encountered by the variations of ridge relationships, ridge sizes, ridge conditions, and inter-ridge distances. Modifications in complete denture occlusion will be suggested for the various conditions that the dentist is likely to encounter. These modifications are designed to control the forces delivered to the denture foundation so that they are within the level of tissue tolerance.

A procedure for a modified occlusion and the refining of this occlusion after processing the dentures, will be considered in detail. The presentation will be illustrated.

Biography: He is Professor and Chairman of Removable Prosthodontic Department, School of Dentistry, State University of New York, Buffalo.

Fellow, American College of Dentists

Diplomate of American Board of Prosthodontics

Charter member of the American College of Prosthodontists

Member of the American Prosthodontic Society

Greater New York Academy of Prosthodontics

PLACE: — TUDOR ROOM

TIME: — 10:45 a.m. — *Chairman* — DR. A. HISTROP

— 2:30 p.m. — *Chairman* — DR. W. G. WOODS

"Painless Stainless for Conservation of Tooth and Time"

ROD L. MORAN, D.D.S.

Synopsis: The detailed use of Stainless Steel in the preservation of tooth structure and arch length in the practice of dentistry for children.

Biography: Dr. Moran graduated from the University of Toronto in 1961. Following five years in the Canadian Forces he returned to the University of Toronto for graduate studies, receiving his Diploma in Paedodontics in 1967. Dr. Moran is currently Director of Dentistry at the Ontario Crippled Children's centre, Consultant in Paedodontics to the Hospital for Sick Children and a member of the Paedodontic staff at the University of Toronto, Faculty of Dentistry.

PLACE: — ALGONQUIN ROOM

TIME: — 9:30 a.m. — *Chairman* — DR. G. GUTMANN

— 2:30 p.m. — *Chairman* — DR. R. GROSE

"Intravenous Sedation for the General Practitioner"

A. G. PARNELL, D.D.S.

Synopsis: The technique of intravenous sedation is integrated into the undergraduate program in Oral Surgery at the University of Western Ontario. At the present time the drug Diazepam (Valium) is employed with excellent results. The technique is obviously suitable for periodontal surgery, quadrant dentistry and for most healthy adults requiring premedication. The presentation will cover patient selection, contraindications, our normal teaching routine including slides of the procedure.

Biography: Dr. Parnell was born and educated in London, England. He served as a pilot with the Royal Air Force from 1940-45. Graduated from the Royal Dental Hospital School, University of London in 1950. He commenced a seven year postgraduate training period in Oral Surgery obtaining along the way, his Fellowship in Dental Surgery of the Royal College of Surgeons of England in 1953.

His appointments include:

Consultant Oral Surgeon — University of Newcastle 1961-65,
Head of Oral Surgery — University of Manitoba 1965-67,
Professor of Oral Surgery — University of Western Ontario,
1967-

PLACE: — QUEBEC ROOM.

TIME: — 9:30 a.m. — *Chairman* — DR. G. I. BAKER.
— 2:30 p.m. — *Chairman* — DR. V. CULOTTA.

"New Ideas in Dental Materials"

DENNIS C. SMITH, M.Sc., Ph.D., F.R.I.C.

Synopsis: This discussion will centre on new developments of special interest to the general practitioner. Attention will be focussed on the applications of adhesion, composites, amalgam and prosthetic materials.

Biography: He obtained B.Sc. in Chemistry, University of London 1950, M.Sc. London, 1963, Ph.D. in Dental Materials 1957, F.R.I.C. — 1958.

Visiting Professor in Dental Materials, North Western University, Chicago, U.S.A. 1960-1, Professor of Dentistry, University of Toronto 1969.

He is an Honorary Member of the American Academy for Plastics Research in Dentistry. He is Consultant to the F.D.I. Commission on Dental Materials, Instruments and Equipment.

Author of many scientific articles and contributions to several books.

PLACE: — TUDOR ROOM.

TIME: — 9:30 a.m. — *Chairman* — DR. E. BRANSCOMBE.
— 3:45 p.m. — *Chairman* — DR. B. MCKAY.

"Clinical Considerations in Porcelain-Fused-to-Gold"

DONALD R. KRAMER, D.D.S.

Synopsis: This presentation covers those aspects of the porcelain veneered restoration of importance to the practicing dentist. Case selection, diagnosis, and proper tooth preparation are discussed. Partial and full coverage single restorations, multiple units and fixed and removable appliances will be discussed, along with porcelain fused to gold, and why they succeed or fail.

Biography: Dr. Kramer, a 1963 McGill graduate, attended Indiana University, where he obtained an M.S.D. degree in 1967. At the University of North Carolina, he taught Crown and Bridge Prosthodontics. Dr. Kramer served as consultant to the U.S. Public Health Service, and to Grasslands Hospital, and as Director of Education for J. F. Jelenko & Co. He also engaged in private practice. In January 1971 Dr. Kramer returned to Canada. He is engaged in private practice in Toronto, and serves as Associate in Dentistry at the University of Toronto School of Dentistry.

PLACE: — QUEBEC ROOM.

TIME: — 10:45 a.m. — *Chairman* — DR. E. S. WALKER.
— 3:45 p.m. — *Chairman* — DR. G. M. MARSHALL.

"Taxation of the Professional Man — and the Effects of the New Budget"

MR. MARTIN CHASSON

Synopsis: Application of White Paper on Taxation — June, 1971 Budget — how does it affect the dentist and how do existing tax plans fare under the new proposals? i.e. registered retirement savings plans, incorporation of management service companies; tax savings through investments in real estate.

A review to minimize income taxes, estate taxes and gift taxes.

A review of the accounting system that a dentist's office should have for maximum control of billing and minimization of errors.

Biography: Mr. Martin Chasson obtained his C.A. degree in 1961. Presently a senior partner in the public accounting firm of Skurka, Chasson & Company, Chartered Accountants.

PLACE: — ROOM No. 3.

TIME: — 10:45 a.m. — *Chairman* — DR. P. CHAPNICK.
— 3:45 p.m. — *Chairman* — DR. H. ORFUS.

“Radiological Pitfalls in General Practice”

SIDNEY M. FIREMAN, D.D.S.

Synopsis: The consultant in oral radiology sees a recurring group of problem radiographs from general practice offices. Several interesting cases of this nature will be presented, and the rationale behind their interpretation will be emphasized.

Rare cases will not be included in the presentation.

Biography: Graduated from Faculty of Dentistry, U. of T., 1968. Resident in Oral Radiology, School of Graduate Studies and in Faculty of Dentistry. On staff in Dept. of Radiology, Faculty of Dentistry. U. of T.

PLACE: — BRITISH COLUMBIA ROOM.

TIME: — 10:45 a.m. — *Chairman* — DR. D. TESKEY.

— 3:45 p.m. — *Chairman* — DR. D. STONEMAN.

“Gutta Percha in Multi-rooted Teeth”

G. E. SPARROW, D.D.S.

Synopsis: A movie featuring Dr. A. H. Thompson will be used to illustrate the use of gutta percha in a lower left molar. There will be a discussion of techniques for using gutta percha in all teeth. Also the gyromatic hand piece will be discussed as a means of more rapidly and efficiently filing root canals.

Biography: Graduated University of Toronto 1954. Past President of the Endodontic Study Club. Producer of two endodontic movies used for teaching at the University of Toronto, and a periodontal movie with Dr. John Speck also used at the University of Toronto.

PLACE: — ALBERTA ROOM.

TIME: — 9:30 a.m. — *Chairman* — DR. A. M. ADAMS.

— 2:30 p.m. — *Chairman* — DR. J. H. MULLETT.

"The Management of Crossbite in General Practice"

NEIL MUNRO, D.D.S., M.Sc.D.

Synopsis: The diagnosis and treatment of anterior and posterior crossbites will be discussed. Special emphasis will be placed upon selection of appliances and their construction. The advantages and disadvantages of removable versus fixed types of appliances will be considered in this illustrated presentation.

Biography: Dr. Munro graduated from the University of Toronto in 1955, received his Diploma in Orthodontics in 1962, M.Sc. in 1965, and F.R.C.D.(C) in 1967. He is a Consultant in Orthodontics at the Ontario Crippled Children's Centre and is chairman of the Publications Committee of the O.D.A.

PLACE: — ALGONQUIN ROOM.

TIME: — 10:45 a.m. — *Chairman* — DR. G. JOYNER.

— 3:45 p.m. — *Chairman* — DR. J. E. C. McCOWAN.

"Trouble Shooting in Crown and Bridge and Operative Dentistry"

DAVID COWAN, D.D.S.

Synopsis: Under this topic, with the use of coloured slides there will be a discussion and presentation of the following:

1. A comparison of the various pins used to enhance retention.
2. A simple pin technique to retain anterior and posterior restorations.
3. A simple pin technique to build cores and to reinforce teeth.
4. A simple pin technique for rubber impressions.
5. A simple technique for the class V pin retained inlay and a direct pattern technique for post and cores.
6. A quick method of temporary immediate splint fabrication.
7. The hazards of silver point obliterated endodontically treated teeth and their crown preparation.

Biography: Graduated from the Faculty of Dentistry, University of Toronto in 1962. He is on staff at the Faculty of Dentistry University of Toronto, as an associate in operative dentistry and is:

Engaged in private practice in Toronto.

A member of the Canadian Academy of Endodontics, Toronto Academy Endodontic Study Club, Analgesia Study Club, and the Crown and Bridge Study Club.

A member of the New York Academy of Dental Practice Administration, and an associate member of the Chicago Dental Society.

PLACE: — ALBERTA ROOM.

TIME: — 10:45 a.m. — *Chairman* — DR. M. CHANTLER.

— 3:45 p.m. — *Chairman* — DR. A. BLACK.

"Problems faced by the Dentist and Patient"

JOHN G. LINGHORNE, D.D.S.

Synopsis: Today, dentists are able to place more effective emphasis on preventive maintenance. It is apparent that certain aspects have received very little thought and study. In most mouths dental disease is poorly controlled.

Some of the topics the author will discuss are:

1. Limitations of various home care techniques and devices.
2. Are you getting maximum results from the home care program?
3. The oral home care program to motivate the patient to demand better dentistry and follow a proper disease control program.

Biography: Dr. Linghorne, a 1959 University of Toronto graduate, completed his specialty in Periodontia in 1966. He now is in full time practice in Periodontia and is a part time demonstrator at the University of Toronto.

PLACE: — ROOM No. 3.

TIME: — 9:30 a.m. — *Chairman* — DR. T. MCKEAN.
— 2:30 p.m. — *Chairman* — DR. G. CHONG.

"Current Trends in Operative Dentistry"

PHILIP A. WATSON, D.D.S., M.S.D.

Synopsis: This essay will discuss safe current trends in operative dentistry emphasizing methods to reduce the common failures in dental treatment. It will include:

- a. a discussion of tarnish and corrosion in dental amalgam, marginal breakdown and isthmus fracture and methods of reducing their incidence and severity,
- b. the selection of pins, their clinical use, and methods of avoiding problems with pins,
- c. the uses and limitations of composite resins.
- d. the causes of gingival irritation in restorative procedures,
- e. a preventive philosophy in an operative practice.

Biography: Dr. Watson graduated from the Faculty of Dentistry, University of Toronto in 1967. He spent a year in general practice followed by graduate training in Operative Dentistry at Indiana University School of Dentistry where he was granted his M.S.D. in 1970. He is currently an Assisant Professor in the Department of Restorative Dentistry, Faculty of Dentistry, University of Toronto.

PLACE: — BRITISH COLUMBIA ROOM.

TIME: — 9:30 a.m. — *Chairman* — DR. R. SEXTON.
— 2:30 p.m. — *Chairman* — DR. R. MARTIN.
